

GREEN  CROSS

WINTER 2018
Collection

Founded in 1975 by Karl and Hildegard Zeppel, Green Cross Shoes combine classic style with uncompromising comfort. Crafted from the finest genuine leathers and superior quality materials, our shoes provide optimum breathability, flexibility and durability.

Every pair of Green Cross Shoes passes through 50 pairs of our shoemaker hands and is manufactured to the highest quality standards.

Green Cross Shoes perfectly combine the comfort that is our trademark with enduring style.

What makes a Green Cross Shoe?

1. Rounded heel cup for comfort
2. Contoured and cushioned high density latex footbed
3. Superior quality insole board for flexibility and support
4. Top quality shank board for support
5. Steel shank for extra stability
6. Cork inlay for shock absorption
7. Metatarsal and longitudinal arch support
8. Superior quality sole
9. Superior lining and socking materials for breathability
10. The finest quality genuine leather uppers

Caring for your shoes

Leather is a natural product and will discolour over time. To enhance the lifespan of your Green Cross shoes, it is important to take care of them and follow our instructions below:

1. Wear your shoes frequently. Green Cross shoes are made for walking.
2. Do not wear the same pair of shoes every day. This allows them to breathe and retain their shape.
3. Avoid environments where oils, chemicals and solvents are present.
4. Regularly clean and polish your leather uppers with leather cleaner and polish.
5. Remove dirt by wiping with a soft brush or slightly damp (not wet) cloth.
6. Never use harsh cleaning agents on our shoes. These chemicals destroy the natural leather.
7. Do not soak or submerge shoes in water.
8. Allow damp shoes to dry naturally at room temperature. Do not put them near a direct heat source.

Caring for different leathers

Colour variations or slight imperfections are the hallmarks of true genuine leather.

Full Grain Leather

- Ensure that the selected polish matches the upper colour.
- Neutral shoe creams/polishes should be used for light coloured leather.
- Apply evenly in small amounts and buff with a clean, dry lint-free cloth or buffing brush.

Suede and Nubuck Leather

- Protect new shoes before the first wear with suede and nubuck protector.
- Remove surface dirt with a soft brush.
- Some stains may be removed using a suitable suede or nubuck cleaner.
- Certain cleaners may darken the colour of the upper. Test on a small area first.
- A soft brush can be used to restore and raise the nap of the leather.
- Avoid spilling oily liquid onto the nubuck leather as this will permanently damage it.

Waxy and Oily Leather

- Do not use liquid polish as these leathers have been specifically treated with waxes and oils to give optimum suppleness, comfort and authenticity.
- Scratches may easily occur but can be removed in most cases by gently rubbing the surface area.
- Specifically formulated shoe creams for oily and waxy leather can be used. Using a cloth, work well into the leather.
- Buff with a clean, dry lint-free cloth.

High Shine and Patent Leather

- Do not use a buffing brush.
- Wipe and buff with a clean lint-free cloth.

Metallic Leather and Synthetic Finishes

- Wipe with a clean cloth moistened only with water.
- Gently rub with a dry cloth to return to a shiny finish.
