Glossary

Full Grain Leather	Quality genuine leather with no coating and minimal correction. May show slight imperfections that prove the authenticity of this natural product.
Nubuck Leather	Genuine leather which has been brushed in the tanning process, giving a product that is silky to the touch.
Nappa Leather	Genuine leather that is characterized by its softness.
Suede Leather	Soft leather with a brushed nap that is soft to the touch.
Action Leather	A corrected leather that is treated with a film that improves its scuff resistance and durability.
Microfibre / Spandex / Mesh	Woven materials that are manufactured to give stretch and suppleness, but are breathable and help to absorb and wick moisture.
Foam Backed Textile	Woven materials that are backed with a layer of foam. These are used as linings to provide a material that is breathable and soft to the touch.
Breathable Synthetic	Synthetic materials are man-made products. Improvements in technology have resulted in lining materials that are leather-like and able to transfer air and moisture away from the foot in wear.
Contoured Footbed	A moulded footbed that is shaped to provide underfoot support during wear.
Metatarsal support	The metatarsals are the long bones of the foot that connect the ankle to the toes. Moulded footbeds are shaped in a way to support these bones and connected muscles, thus reducing stress and fatigue.
Latex footbed	Latex in its natural state is a component of rubber. Its properties make for a material which is shock absorbent and energy returning. Used in shoes as a footbed or insole it provides durable cushioning and support.
Memory Foam	This is a foam that softens and moulds itself under pressure or body warmth, but never collapses. It returns to its original form ready for the next wear. Often seen used in expensive mattresses, in footwear it provides similar support and cushioning for feet.
Poron	Poron is a patented latex-type material that is a world leader in shock-absorption. Used as footbed or insole, it promises the wearer incomparable comfort in all-day wear.
EVA	A blown, lightweight soling material.
Resin rubber	A durable synthetic soling material used on formal, styled footwear.
TPR	Thermo Plastic Rubber. Used for hard-wearing outsoles.
Phylon	A blown, lightweight material usually used in athleisure footwear.
PU	Polyurethane. Characterised by its lightness and durability as an outsole material.

* All heel heights not specified are either 25mm or lower

LONG BOOTS

51630

Sizes 3 - 9

brown

FEATURES:

Upper	Tumbled nubuck with vintage treatment
Lining	Velvet-feel textile
Socking	Leather-look synthetic
Footbed	3mm Latex foam
Outsole	TPR unit
Heel height	55mm

51631

Sizes 3 - 9

black

FEATURES:

Upper	Full grain leather
Trims	Elastic back panel and gusset. Bar and stud trim on top of strap
Lining	Nylex textile
Socking	Leather-look synthetic
Footbed	3mm Latex foam
Outsole	TPR
Heel height	45mm

BENEFITS:

Elastic back panel can accommodate a slightly wider calf.

51632

Sizes 3 - 9

black

FEATURES:

Upper	Full grain leather
Trims	2 Functional zips
Lining	Velvet-feel textile and microfibre
Socking	Leather-look synthetic
Footbed	3mm Latex foam
Outsole	TPR

BENEFITS:

A classic riding boot with 2 functional zips which allows for normal and narrower calf widths.

51633

Sizes 3 - 9

tan

FEATURES:

Upper	Full grain leather with textile gusset behind outside zip
Trims	2 Functional zips
Lining	Velvet-feel textile and microfibre
Socking	Leather-look synthetic
Footbed	6mm Memory foam
Outsole	TPR
Heel height	38mm

BENEFITS:

Luxurious 6mm memory foam footbed provides all day comfort. Outside zip allows for variable calf widths.

51634

Sizes 3 - 9

mud

FEATURES:

Upper	Full grain leather with textile gusset behind outside zip
Trims	2 Functional zips
Lining	Velvet-feel textile and microfibre
Socking	Leather-look synthetic
Footbed	6mm Memory foam
Outsole	TPR
Heel height	38mm

BENEFITS:

Luxurious 6mm memory foam footbed provides all day comfort. Outside zip allows for variable calf widths.

51635

Sizes 3 - 9

black

FEATURES:

Upper	Full grain leather
Trims	Antique brushed nickel trim on ankle strap
Lining	Velvet-feel textile
Socking	Leather-look synthetic
Footbed	3mm Latex foam
Outsole	TPR
Heel height	35mm

|---------|----------------------------------------------------------------|
| Upper | Permair leather |
| Trims | Waxy cotton laces. Padded tongue. Woven label for child's name |
| Lining | Cambrelle |
| Socking | Cambrelle |
| Footbed | 4mm Latex foam |
| Outsole | TPR. Stitched to upper for durability |

BENEFITS:

Permair leather has a unique micro porous finish that allows the foot to breathe and guards against scuffs, stains and water. Easy clean finish - just wipe with damp cloth. No polish required. Cambrelle lining is a patented odour resistant lining that absorbs moisture during wear. The moisture is released when shoes are removed, protecting hidden components from disintegrating.
