EXCEL AUTOFLUSH

Automatic Urinal Flusher

Research as to why bad odours occur in men's washrooms has proven that most men don't flush. The EXCEL Autoflush solves this problem and reduces the risk of cross contamination. As the user approaches the urinal, the sensor picks up his presence, the unit then gives a 2 second pre flush to wet the urinal. Once the user walks away the unit flushes for either 5 or 7 seconds. This prevents the build-up of uric acid in the trap, and eliminates the opportunity for bacterial growth and bad odours to occur.

SCHEMATIC

FEATURES

- Two second pre flush
- Five second after flush
- Auto flush every 24 hours
- Sensor adjustable 65mm
- Retrofits Cobra Flushmaster
